KN1902P-00 Stand-alone Safety Station - Emergency safety shower

The **KN1902P-00 stand-alone safety station** is an essential piece of equipment for any industrial environment handling hazardous substances. Designed to provide an immediate response in the event of a chemical accident or exposure to irritants, it combines a **body shower** and **eyewash station** in a sturdy, accessible structure. Manufactured by **Krusman Nödduschar AB (Sweden)**, this station meets the most stringent safety standards and guarantees rapid response in the event of an emergency.

Technical specifications:

- **Dimensions:** 2413 mm (height) x 495 mm (width) x 737 mm (depth)
- **Flow rate:**

Shower: 120 L/min

Eyewash: 14 L/min

- **Materials:**

Stainless steel for structure

ABS plastic for sensitive components

- **Integrated equipment:**

Dust caps

Integrated filters

Compliant warning sign

- **Accessories:**

Stainless steel shower head with epoxy coating (KND531)

Polypropylene spray head with cap (KND505)

Pull handle with stainless steel cable (KND540-100)

Pulling bar with flag (KND532)

Control board for automation (ND549)

Benefits :

- **Rapid intervention:** simple, effective activation system, even in low position for people injured on the ground.
- **Optimum reliability:** robust materials and components ensure durability and efficiency even in hostile environments.
- **Easy maintenance:** removable components, integrated filters and caps to prevent contamination.
- **High visibility:** supplied with standardized pictograms (emergency shower KND547 and eye wash KND545).
- **Installation versatility:** delivered ready for connection with full installation instructions.

Application:

The KN1902P-00 safety station is recommended for all industrial sectors handling chemicals, dusts or hazardous substances:

- Chemical laboratories
- Manufacturing plants
- Water treatment plants
- Food and pharmaceutical companies

It is used in the event of accidental contact with irritating or corrosive agents. The user can activate the shower or eyewash in a matter of seconds, thanks to the ergonomic pull handles.

Reliable, robust and compliant with industrial requirements, the **KN1902P-00 stand-alone safety station** is the safe choice for protecting employees in the event of an accident. Its intelligent design, hydraulic performance and ease of use make it an indispensable solution for ensuring safety in the workplace.
