Dimensions and weight:

Length: 22.2 cm

Height: 12 cm

Head width: 9.5 cm

Body width: 10.2 cm

Weight with battery: 1,270 g

Advantages :

- **Power and performance :** With 2,207 lumens and a range of 453 meters, the Peli™ 9410L offers powerful illumination for dark or hard-to-reach environments.
- **Extended runtime:** You benefit from long light duration (up to 11 hours) without battery worries, ideal for extended missions.
- **Flexibility of use:** the 120-degree swivel head and multiple lighting modes let you adapt the light to your needs.
- **Convenient transport:** ergonomic handle and carrying strap ensure practical transport, even during long periods of use.
- **Strength and durability:** Built with robust materials such as polycarbonate and ABS, this headlamp is designed to withstand the most demanding conditions.

The Peli™ 9410L LED headlamp is the ideal solution for those looking for a powerful, durable and easy-to-carry light. Thanks to its high-performance battery, extended runtime and robustness, it meets the needs of professionals while offering great flexibility of use. Whether for outdoor work, security missions or emergency situations, this floodlight is a reliable, high-performance tool.
