

## Peli™ 2760 headlamp

Reference: -  
EAN13: -

Color: Black

### Product features:

Power category: From 201 to 400 lumens  
ATEX certification: No  
Power supply: Batteries  
Autonomy indicator: No  
Lighting mode: High / Medium / Low / Flashing  
Light output: High 289 lms / Medium 156 lms / Low 97 lms / Downcast 42 lms  
Beam range: High 101m / Medium 66m / Low 48m / Downcast 19m  
Waterproofing: IPX4  
Length: 5.7  
Weight with batteries: 96 gr  
Battery type: LR03  
Number of batteries: 3  
Batteries included: Yes  
Autonomie.: Faisceau faible : 1h30 à 5h30  
Refillable: No

## Peli™ 2760 headlamp - Performance and ruggedness

Discover [the Peli™ 2760 headlamp](#), one of the Peli™ headlamps designed for professional and personal use. With its advanced technology, this LED lamp is an efficient, high-performance, all-terrain headlamp, perfect for a variety of outdoor activities such as industrial maintenance, hiking and trekking.

**Peli™ 2760 headlamps** combine power and robustness, offering adjustable illumination of up to 289 lumens. Thanks to its 3 specific modes, the **Peli™ 2760 headlamp** adapts to all your needs.

### Peli™ 2760 headlamp features:

The Peli™ 2760 headlamp offers an **impressive lighting power** of 289 lumens for a range of 101 meters. It features 4 light intensity levels: 42, 97, 156 or 289 lumens. Its 3 lighting modes include:

- Downward light: Perfect for precise visibility.
- Red LED light: Ideal for night vision.
- Flashing light: Used as a warning signal (safety mode).

Powered by 3 AAA batteries (included), this headlamp has an 11-hour runtime. With an IPX4 protection rating, it is splashproof and weatherproof. The Peli™ 2760 headlamp is equipped with a battery life indicator and includes

helmet attachment accessories.

## Advantages of the Peli™ 2760 headlamp:

- **Multi-beam technology:** Combines performance and adaptability to meet a variety of lighting needs.
- **High Brightness:** Offers 289 lumens of power, ideal for optimal visibility.
- **Operating Modes:** Includes a night vision mode and a flashing mode for added safety during nocturnal activities.
- **Comfort and Ergonomics:** Lightweight and adjustable, it adapts easily to your head for extended use.
- **Waterproof:** Ideal for wet environments, guaranteeing reliable use in all conditions.

The Peli™ 2760 headlamp is particularly useful in the construction sector, for example.

The 2760 headlamp, featuring multi-beam technology combines **performance and adaptability**, on a construction site where different tasks need to be carried out, the ability to adjust the beam allows workers to quickly switch from a wide light for moving around to a concentrated light for precision work. With 289 lumens of power, the lamp offers optimum visibility. It's ideal for use in damp environments, and reliable in all weather conditions, such as outdoor construction. The lamp's waterproofing ensures that it works properly, even under difficult conditions, without risk of failure.

## Contents of the Peli™ 2760 headlamp:

The 2760 headlamp comes with:

- 1 fabric strap
- 1 glue-on helmet mount
- 3 LR3 batteries
