

Burn first aid kit CEDERROTH

Product features:

Dimensions: W 30.5 cm x H 24.5 cm x D 8.6 cm

Reference: 38943
EAN13: -

This Cederroth **burn first aid** kit is designed to provide fast, effective care for first- and second-degree burns. This portable kit is ideal for work environments where the risk of burns is high. Burn Gel products, included in the kit, provide immediate pain relief while cooling the skin. The kit contains pads in various sizes, including a 30 x 40 cm pad/face mask, for maximum coverage of burned areas.

Transparent, deployable pockets provide clear organization and optimum visibility of the kit's contents, making it easy to use in emergency situations.

Features :

- **Type of products:** Burn gel, compresses, face mask, holding and hygiene accessories
- **Kit dimensions:** 305 x 245 x 86 mm
- **Kit contents**
 - 1 burn gel (100 ml)

 - 1 pair of scissors

- First aid and burn care instructions
- **Materials:** Hydrogel compresses, non-woven compresses, plastic and metal accessories
- **Suitable for :** Environments with a high risk of burns (construction sites, industries, Horeca, etc.)

Advantages :

1. **Fast, effective burn care:** Burn gel and compresses provide an immediate soothing and cooling effect, reducing pain and inflammation.
2. **Versatility:** Includes a wide range of compresses in different sizes to treat small and large burns, including a face mask for optimum coverage.
3. **Complete kit:** In addition to burn care products, the kit includes essential accessories such as gloves, elastic bandages and a blood stop, enabling a complete emergency response.
4. **Ease of use:** Products are neatly organized in a transparent, deployable pouch, making it easy to quickly access what you need during an emergency.
5. **Suitable for many sectors:** This kit is designed for high-risk work environments, including construction, food processing, paper, chemicals, metals and hospitality.

Use:

The Burns First Aid Kit is a must-have in environments where the risk of burns is high. It provides rapid pain relief and effective first aid before professional help is called in. This kit is particularly useful for workers in sectors such as :

- **Construction:** For burns caused by hot surfaces, steam or open flames.
- **Food industry:** To treat burns associated with industrial kitchens, ovens and other hot equipment.
- **Chemistry and metallurgy:** Where the risk of chemical or thermal burns is frequent.
- **Horeca:** Suitable for kitchen environments, with increased risk of burns in food preparation areas.

This Cederroth burns first aid kit is an essential solution for any company or organization operating in burn-risk environments. With high quality products offering rapid care, this kit helps reduce the consequences of burns by providing immediate pain relief. Practical and complete, it is designed for easy use in an emergency. Offer your teams effective protection and optimal risk management with this specialized first aid kit for burns.

Ensure the safety of your employees and your premises with this burns first aid kit!
